CRIO

WEBSITE PROPOSAL

A calm, trusted digital home for cancer care.

A 4-page personal static website that introduces Dr. Hemalatha V, explains her oncology services clearly and makes it effortless for patients to book a consultation.

PREPARED BY	PROPOSAL DATE	VALID UNTIL
CRIO Hub Solutions	16 October 2026	15 November 2026

HV

Dr. Hemalatha V
Medical & Radiation Oncologist

Personal Doctor Website

PROJECT OVERVIEW

What we will build

Patients facing a cancer diagnosis look for expertise, warmth and clarity. We will design and develop a fast, mobile-first static website that reflects Dr. Hemalatha's credibility as a Medical and Radiation Oncologist, builds patient confidence and turns visitors into appointments — with no heavy backend and minimal maintenance.

01
Build Trust
Qualifications, experience and a human, compassionate tone on every page.

02
Explain Care Clearly
Easy-to-read treatment information for patients and families.

03
Drive Appointments
One-tap call, WhatsApp, map and enquiry form on every screen.

SITEMAP

4 pages, one clear patient journey

01 Home
- Hero with portrait & credentials
- Specialities snapshot
- Why choose Dr. Hemalatha
- Patient testimonials
- Book appointment CTA

02 About Doctor
- Profile & care philosophy
- Education & qualifications
- Experience & hospital affiliations
- Memberships, awards & publications

03 Treatments
- Medical Oncology – chemo, targeted & immunotherapy
- Radiation Oncology – IMRT, IGRT, SBRT
- Cancers treated
- Patient FAQs

04 Contact
- Appointment enquiry form
- Clinic address & Google Map
- Consultation timings
- Click-to-call & WhatsApp

DELIVERABLES

What you receive

- **Custom UI/UX Design**
  Unique, calming medical theme for all 4 pages — desktop & mobile mockups.
- **4-Page Static Website**
  Hand-coded HTML5, CSS3 & JavaScript — lightweight, fast and secure.
- **Fully Responsive**
  Pixel-perfect on mobile, tablet and desktop across modern browsers.
- **Appointment & Contact Tools**
  Enquiry form to email, click-to-call, WhatsApp chat button and Google Map.
- **Content Structuring**
  Patient-friendly copy editing of provided content and stock/medical imagery.
- **On-page SEO Setup**
  Meta tags, schema for Physician, sitemap, Google Search Console & Analytics.
- **Speed & Security**
  Optimised images, SSL-ready deployment and 90+ PageSpeed target.
- **Launch & Support**
  Hosting/domain go-live, source files handover and 30 days free support.
